

For Immediate Release

S&S ELECTRIC, OF OLDSMAR, NAMED TO THE 2005 CE PRO TOP 100, A LISTING OF THE LARGEST HOME TECHNOLOGY INSTALLATION BUSINESSES IN NORTH AMERICA

OLDSMAR, FLORIDA, June 6, 2005 — S&S Electric of Oldsmar, Florida, has been named to the 2005 CE Pro 100, a listing of the largest home technology installation businesses in North America. S&S Electric moved from 86th place in 2004 to 41st place in 2005.

The 2005 CE Pro 100 is ranked by the volume of billed, not booked, business from residential systems installed in 2004 that incorporate at least three of the following subsystems:

- Audio (sources, speakers, processors or multi-room distribution components)
- Heating, Ventilating and Air Conditioning (HVAC) control/energy management
- Lighting controls
- Security systems (alarms, integrated fire, access control or CCTV)
- Home Networking Systems
- Telecommunications systems
- Video (sources, monitors, projectors, screens, DBS or multi-room distribution components)
- Whole-house automation/integration
- PC networks/broadband installation
- Window covering controls
- Other (acoustical treatments, surge protection, furniture, etc.)

-MORE-

S&S Electric reported annual revenues of \$4,273,000 and installed 4,500 home technology systems in 2004, including central vacuum systems, HVAC systems, lighting control systems, telecommunications systems, audio/video systems, structured wiring systems, satellite dishes, automatic window covering controls, PC networks with broadband routers, hubs and modems, and security video systems.

“The fast growing segment of our business is home technology installations,” said Shawn Smith, Vice President of S&S Electric. “The most popular installations requested by homeowners are audio and video installations and home networking systems, which provides the electronic foundation necessary to ensure that your family can be connected to today’s services and prepared for tomorrow’s technologies. A home networking system is designed to give you a nearly effortless way for you to “connect and control” many of the electronics in your home. For example, it affords you easy control of lights, television and music throughout your home and allows easy monitoring of security systems. It can link home computers and provides easy control your home’s comfort through heating and air conditioning. It also supports all the new and future services you’ve heard about, like digital satellite, home theater, high-speed Internet, a computer LAN, and even a PBX telephone system.”

Founded in 1947, S&S Electric installs 4,500 home technology systems annually in West Central Florida, including electrical distribution; lighting design and control systems; indoor air comfort and quality systems (HVAC); and audio, video, voice and data network systems. S&S Electric was awarded the 2004 CEA TechHome Dealer of the Year award, the 2004 Florida Family Business of the Year award, and the company was featured on the cover of the June 2004 issue of CE Pro Magazine. TechHome Builder Magazine also named the company in the “Top 30 Structured Cabling Dealers” in 2004.

With more than 300 employees, and offices in Oldsmar, Tampa, Sarasota and Ft. Myers, the company’s award-winning team of designers, installers and technicians are recognized throughout the industry for providing customers with value-added, reliable, quality system installations.
